or Fax to 202-966-4824**

about the Environmental Industry Associations

EIA is your information source for:

- Solid and medical waste management information, trends and developments, recycling rates and markets
- Landfill design, operation and maintenance
- Federal/state developments on interstate waste, flow control, taxes, etc.
- Trucks, containers, balers, compactors – who makes them and where to find them
- Safety standards and practices for waste management equipment and workers

Savings and subscriptions:

- Significant discounts on registration fees for WasteExpo, North America's leading exposition and conference
- Discounts on publications and safety training materials
- Subscription to **E-News**, a weekly summary of the top news stories on solid waste and recycling
- Subscription to **Safety Monday**, a weekly safety e-newsletter that helps reduce accidents and injuries
- Subscription to **Waste Industry News (WIN)**, a quarterly e-newsletter featuring articles on topical industry news and developments
- And much more...

Who may join:

EIA affiliation is available to public sector officials in the United States and Canada who manage solid waste collection, recycling or disposal operations, or related programs. Associate membership in EIA is available to insurance companies providing services to the solid waste industry. Please note that participation in any NSWMA meeting, such as a legislative, policy or planning meeting is not open to EIA affiliates.

If your company is a privately-owned or publicly-held entity providing solid or medical waste collection, processing, recycling or disposal services, or provides professional services to the waste industry, please consider membership in the **National Solid Wastes Management Association (NSWMA)**. www.nswma.org

If your company manufactures, distributes or services waste equipment, or provides technology or business services used in the waste industry, please consider membership in the **Waste Equipment Technology Association (WASTEC)**. www.wastec.org
